

Wednesday 29 April 2020

Dear Elm Class

Hope you are all safe and well and ready to learn😊.

Did you enjoy the story Chicken Licken yesterday? Can you remember the names of some of the baby animals found on a farm? What farm animal do you like best?

I have something very new and interesting for you to explore today- Recycling!!!

What do you know about recycling? Recycling is simply about giving old or used things a new lease of life. Do you recycle at home? How can we protect the planet?

There is also a variety of activities for you to explore such as:

- Making wind chimes
- Creating your own cardboard city
- Water skittles

Please view the video links from the timetable. They have lots of useful information including a short video about a whale who wants to protect the planet.

Wishing you a productive day.

Happy learning

Miss Dixon
