

Hello Limetree Green

We hope you had fun yesterday with the activities on The Day the Crayons Quit.

Was your favourite colour in the book?

What was it used for?

Today we will be reading the story Buzz Buzz Busy Bees and engaging in a variety of activities about Bees.

Including a flower experiment to see how water travels through a plant. And a creative activity to make your own beehive using pasta.

What shape of pasta will you use?

Here's an interesting fact for you about bees.

Bees do a waggle dance to show each other where they can find food.

Maybe you can do your own waggle dance at meal times to show your appreciation for whoever makes your food.

Please send a feedback video we would love to see your groovy moves. Also pictures of your learning.

We hope you have lots of fun exploring, experimenting, reading and creating.

Have a wonderful day

From Miss Loftman.
