

Thursday 30th April

Good Morning Children,

Did you enjoy The Commotion in the Ocean?

Did you discover any new sea creatures?

Can you remember any other stories about sea creatures?

Here are some clues for today's story:

This creature has shiny scales.

In the story they learn about sharing and friendship.

Can you guess the story?

That's right. It's The Rainbow Fish.

I hope you enjoy all the following activities:

A discussion about the story.

Making your own Rainbow fish using an old CD and recycled materials.

And some problem solving in the under the sea addition challenge.

Please remember to share your pictures. It would be lovely to see you enjoying your journey of learning.

Take good care.

From Miss Loftman.
