

Dear Willow Class,

Good Morning! It's time to...Explore, Learn and Have FUN! 😊

Today we will have one super-incredible-humorous-problem solving story to learn and have fun with. Have you ever hear about the famous Farmer Duck? Well, he is a special, clever duck with amazing friends, but I'm sure you will find much more about all the characters in this story very soon.

You can make your own paper plate farm animal to help Farmer Duck, clean the farm animals you have at home, make farm animals sounds you know best...have fun!

Also, you can do some more with these ideas:

- Cleaning House – Ask you child to imagine that they are house cleaners. Lead your child in pretend activities such as dusting tables and chairs, washing and polishing windows, and sweeping and scrubbing floors.
- Snack – Go Green – Have an all-green snack, with lettuce, cucumber and celery! Yum-yum!
- Hard or Soft learning game – In a box, place several items that are hard, such as a stone, a spoon and a brick. Add several items that are soft, such as a cotton wool ball, a woollen sock and a piece of foam rubber. Let your child remove items from the box and sort them into two groups: items that are hard and items that are soft.

Have a marvellous day!

Mr. Andonov
