

# Individual Activity Lesson Plan

**Date:** Friday 24<sup>th</sup> April 2020

**Activity Title:** Incy Wincy Spider

**Learning Intention:**

-To complete a simple computer program and follow instructions.

**Links to EYFS:**

-Knows that information can be retrieved from computers (understanding the world)  
-Completes a simple program on the computer  
-Is able to follow directions (communication and language)

**Resources:**

To create the edible soil, you will need:  
-7 cups of flour  
- 1 cup of cocoa powder  
- ¼ cup of oil  
-large container

**Activity Overview:**

Watch a video and engage with a computer program themed around the Incy Wincy Spider rhyme. Then create edible soil.

**Key vocabulary:**

Spider, web, spin, features, eggs, habitat, species, the same, different, click, scroll, more, less, mix, soil.

## ACTIVITY IMPLEMENTATION (including key questions)

**Introduction:**

\*Start by following the link below to listen to the classic nursery rhyme – Incy Wincy Spider.

Incy Wincy Spider- <https://www.topmarks.co.uk/Flash.aspx?bbc=incyWincySpider>

\*Discuss:

\*Why can't Incy Wincy climb the water spout at the beginning of the rhyme?

\*What is a water spout and what are they used for?

\*Can you describe Incy Wincy's attitude?

\*Does he remind you of anyone else? (perhaps one of our growth mindset puppets at nursery)

\*Can you think of a time when you've found something tricky, but you've kept on trying?

Follow the link to hear about what some of your teachers have found tricky, but kept on trying with:

**Main Activity:**

**1) Incy Wincy Spider – Computer Program**

\*Follow the link and complete the Incy Wincy computer program.

[http://resources.hwb.wales.gov.uk/VTC/incy\\_wincy/eng/Introduction/default.htm](http://resources.hwb.wales.gov.uk/VTC/incy_wincy/eng/Introduction/default.htm)

**2) Making Edible Soil/Dirt**

\*We know that we often find spiders outside and sometimes they crawl through soil. Follow the instructions below to make your own edible soil!

*Flour is considered raw until it is cooked. If you want to make it Edible simply place the flour on a flat baking sheet and put it in the oven at 350 degrees F for 5 minutes. Let it cool completely and before using. This will kill off the lingering bacteria in your flour.*

Instructions:

1. Gather the list of ingredients listed above.

## Individual Activity Lesson Plan

2. Add the flour and the cocoa powder in a large container and mix well.
  3. Add the oil and start mixing with a spoon or spatula.
  4. Finish mixing with your hands until you are able to clump the mixture together into a ball but still be able to brake easily.
- This is your edible soil!

\*You could add vegetables to your edible soil or if you have any small world minibeast creatures, create a scene to play with, before eating it.

### Additional ways to support your child:

\*When completing the computer program, model how to use the mouse/tracker pad and work together to begin with. This is quite a tricky skill and will take some time to master so don't worry if it takes longer than expected.

### Extension:
