

# Family House Picture Frame

## Resources:

- Paint of any colour
- Paint brush
- PVA glue
- Glue spreader
- 5 craft sticks (or cut out paper card sticks and items to decorate them)
- White paper
- Coloured pencils
- String (optional)

**1.** Paint your sticks using one colour or different colours for a colourful house. Let the paint dry.

**2.** Draw your family picture. You can write your name and label your family members.

**3.** Once the paint dries, arrange three sticks to form the bottom of the house. Glue them together using PVA glue.

**4.** Use two remaining sticks to make a V-shape for the roof. Glue it carefully on the top and let the frame dry.

**5.** Glue the family picture that you drew at the back of your house frame.

**6.** Use a string or a pipe cleaner to hang your house frame on the wall.
