

Fire Breathing Dragon

Resources:

- Toilet paper roll
- Green paint
- Brush
- Tissue paper (yellow, red, orange)
- 2 medium green pompoms
- 2 small black pompoms
- Googly eyes
- Scissors
- PVA Glue

1. Paint the roll green. Let the paint dry.

2. Take a sheet of your tissue paper and cut into stripes. Glue the googly eyes on the green pompoms.

3. Once the paint dries, glue the eyes on the roll. Stick the black pompoms on the other end of the tube for the dragon's nostrils.

4. On the end with the dragon's mouth, place PVA glue around the inside of the tube. Stick the strips of tissue paper all around. Leave to dry.

5. Take a deep breath and blow through the end where the eyes are. Watch the flames blow!
