

13th May 2020

Dear Elm,

How are you? Did you have a great time exploring families yesterday? Did you find out who is in your family? It would be great to see some of the family portraits you have drawn or painted😊.

Today we will be exploring Science. We have done many experiments in the classroom especially during Science Week so you should all be familiar with experimenting and making a few predictions. Do you remember the time we made volcanoes in the classroom? What happened to it? How about when we did our Walking Water experiment? What happened to the water when we put paper towels inside?

Get ready to have lots of fun!

Activities for you to explore today are:

- Making rainbows using sweets
- Creating lava lamps
- Making honeycomb

Our story of the day is Meet Einstein by Mariela Kleiner
