

Friday 22nd May

Good morning Limetree Green

What a busy week you've had!

Well done for all your hard work.

I'm sure you're ready for some rest and relaxation.

It's nearly the weekend!

But before you go there's a few more learning experiences for you to explore.

Today we learn about the importance of friendship, sharing and working together.

Our focussed story is 'The Squirrels Who Squabbled'.

That's an interesting word 'Squabbled'. What do you think that means?

Have some thinking time.....

I would love to hear your ideas. Please ask one of your parents to send them to - info@clownsnursery.co.uk

Below are your activities for today.

- Roll, count and colour: Roll a die to reveal a number, count the number and match it to the acorns on the activity sheet before colouring the acorn in.
- Squirrel art: Collect materials from outside - leaves, twigs or flowers to design and create your own squirrel.
- Squirrel sequencing: Use your fine motor skills to cut out pictures to complete the premade sequences. Make sure to look closely at the pictures.

Have a fabulous day.

I wish you all a fun, happy and healthy half term.

Take good care.

Love from Miss Loftman
