

Wednesday 13 May 2020

Dear Willow Class,

Good Morning! It's time to... explore, learn and have FUN 😊😊

Today we are going to have lots of fun with outstanding child-friendly science experiments.

We know children love science investigations and experiments, so we will challenge them with few colourful and interesting ideas. The children are sure to have a blast exploring science!

We will start our morning with making a rainbow by using Skittles sweets, followed by lava lamps (oil + water) just before lunch, and in the afternoon we will encourage the children to explore the ingredients that they need to make a honeycomb. Enjoy!

Adult supervision is required for all activities, and please only do activities that you feel are safe, funny and interesting for your children. Thanks in advance!

I wish you a great day full of fun, love, health and happiness!

I miss you all, stay safe!

Mr. Andonov
