

How to Make a Mouse Finger Puppet

Resources

- Grey (or any colour of your choice) square shaped paper 9 x 9 cm
- Black pen or felt tip
- Glue or sellotape to assemble your mouse
- String or gift wrap ribbon.

Instructions

1. Roll your square paper into a cone shape to make the body of your mouse. Secure with glue or sellotape.
 2. Draw the face of your mouse.
 3. Cut out 2 circles for the ears and glue them on top of the body about $\frac{1}{2}$ way down.
 4. Use some gift wrapping string (it gives a nice curl) or ribbon for the tail.
 5. Cut thin strips of paper for the whiskers and glue them to the nose.
- Have fun with your finger puppet.
