

Individual Activity Lesson Plan

Date: Monday 4 th May 2020	
Activity Title: Edible Pirate Ships	
Learning Intention: to handle tools/resources with increasing control.	Activity Overview: Chop apples and cheese and arrange the food to make edible pirate ships.
Links to EYFS: Physical Development: Handles tools, objects, construction and malleable materials safely and with increasing control.	
Resources: *Today's focus story: https://www.youtube.com/watch?v=i1hs7jzfSok&t=24s *Pirate Flag Template (design your flag on paper, if it is not possible to print) Ingredients: • 4 red or green eating apples. • 200g cheddar cheese. Equipment: • Knife • Cocktail sticks • Apple corer or apple slicer • Plain paper • Felt-tip pens • Scissors • Glue or sticky tape	Key vocabulary: Ingredients, equipment, tools, instructions, hold, cut, assemble, stick.
ACTIVITY IMPLEMENTATION (including key questions)	
Introduction: *Recap/read today's focus story: <i>Come away from the water, Shirley</i> by John Burningham. -What did Shirley spot in the water? -Can you describe the pirate ship? *Explain that today you are going to follow a set of instructions to make cheese and apple pirate ships!	
Main Activity: Method: 1. Wash and core the apples. 2. Cut the apples into quarters using a sharp knife. Take care when you are cutting the apples; ask an adult for support if you need it. 3. Cut the cheese into small cubes. 4. Slide the cubes of cheese, one at a time, on to a cocktail stick. This will be the mast of the ship. 5. Stick the cocktail stick and cheese into the apple ship. 6. Cut a small rectangle of paper for the pirate's flag. Design and decorate your own flag and fold it in half around the top of the cocktail stick (use sticky tape to secure it). 7. Your cheese and apple pirate ships are now ready to enjoy!	
Challenge: *Use the large pirate flag template to design your flag, before replicating it on smaller pieces of paper for your edible pirate ships.	

Individual Activity Lesson Plan

Additional ways to support your child:

Support your child by modelling how to use a knife safely. Remember your child will need to be given lots of opportunities to develop such skills, so don't be too concerned if the ships aren't the exact shape they are in the picture; the process of handling the tools is the purpose of the activity.

Extension:

Can you use a greater range of fruit to create a giant pirate ship? If you have a birthday or special occasion in the family this would be a perfect opportunity to get creative!
