Introduction:

*Who is in this photo?

*What are you doing in this photo? Do you remember when we took it?

*Why do you think we keep photographs on display?

Main Activity:

- Explain to your child that today, he/she is going to create a picture frame to put on display in your house.
- Show your child the attached **Family House Picture Frame Step by Step Instructions** as an example of what he/she will be creating and what it might look like.
- Gather the resources listed above.
- First, paint the craft sticks using any colour of your child's choice. Let them dry.
- Meanwhile, invite your child to draw/paint your family picture. (Make sure the size of the paper will fit in the frame.)
- Once the sticks dry, arrange three sticks to form the bottom of the house and glue them together using the PVA glue.
- Use two remaining sticks to make a V-shape to form the roof. Glue it carefully on the top and let the frame dry.
- Stick the family picture at the back of the house frame.
- Using string to hang the frame on the wall.

*What colour are you going to use for your frame?

Individual Activity Lesson Plan

- *I wonder how we're going to make the roof.
- *What shall we use to hang the frame?

Additional ways to support your child:

Guide your child throughout the whole process, verbalising what you are doing and offer as much help as he/she needs.

Extension:

Let your child follow the attached picture instructions and encourage him/her to be as independent as possible whilst creating his/her frame. Suggest to your child to write his/her name and label the family members in the picture.
